

FIRE PITS 

The Solo Stove fire pit makes it possible to enjoy a smoke free fire followed by an easy cleanup. The patented, award-winning design is the new standard for wood burning campfires. Solo Stove technology pushes the limits of both combustion airflow efficiency and minimalist outdoor design. This stainless steel fire pit kit includes a stand that makes it possible to use the fire pit on various heat sensitive surfaces and allows more airflow to pass underneath.

- Hot, efficient burn
- Low smoke
- Stainless Steel
- Highly portable
